CHINESE LIBERALITY

Viceroy Provides for Scholarships for Students.

BRIGHT BOYS BRIGHT FUTURE

First Instance on Record Where a Conservative Chinaman Has Given Patronage to an American or European Institution.

Berkeley, Cal., Jan. 18.—His excellency, Sheng, viceroy of Chili province of China, has been induced by Prof. John Fryer of the department of oriental languages at the state university, to provide five scholarships for Chinese students now at the university. The first installment of the funds has been received by Prof. Fryer and five fortunate Chinese students have been selected as beneficiaries of their distinguished countryman's liberality. The students chosen are later to be supplied with employment in China and already can dream dreams and see visions of political places and preferment at the hands of the powerful Sheng.

This is the first instance of record, according to Prof. Fryer, who is an authority on oriental affairs and thoroughly versed in all the history of the oriental relations with the west, that scholarships have been given by a Chinese official to the students to any American or European university.

In No Hurry For the Doctor. "Almost always when my patients send for me," said the physician, "they instruct the messenger to tell me to come at once. In fact, this custom of trying to hurry the doctor to the bedside of the patient is general, and all physicians expect it, and it is such an old story to office attendants that they do not as a rule bother to remember it. But the other night I had a surprise. "It was about 7 o'clock, and a gentle-

man had called an hour before to request me to see his wife. What was remarkable was the fact that he had told my office boy to inform me not to call until the next morning if I did not find it convenient to visit his wife that night before 9 o'clock, which he said was the usual hour at which they retired.

"Tell the doctor," he said, "it is nothing very important. My wife has only something the matter with her mouth that prevents her from talking. It will be all right if he cannot find time to call before the morning."—New York Press.

When the Life Saver's Work Begins.

After the last summer visitor has gone and the little craft that sail over the shallow bay have been hauled up high and dry, the pavilions deserted and the bathing houses boarded up, the beaches take on a new aspect. The sun shines with a cold gleam, and the surf has an angry snarl to it as it surges up the sandy slopes and then recedes, dragging the pebbles after it with a rattling sound. The outer line of sand bars that in the summer breaks the blue sea into sunny ripples and flashing whitecaps then churns the water into fury and grips with a mighty hold the keel of any vessel that is unlucky enough to be driven on them. When the keen winter winds whip through the beach grasses on the dunes and throw spiteful handfuls of cutting sand and spray, when the great waves pound the beach and the crested tops are blown off into vapor, then the life saver patrolling the beach must be most vigilant.—From "Stories of Inventors," by Russell Doubleday.

The Value of Today.

"I believe," said Senator Hear once, "that today is better than yesterday and that tomorrow will be better than today."

Contentment and hope! With these two, and no more, we can solve the riddle of life.

"Today is better than yesterday." Believe it and remorse flees; regret it not and memory becomes what it legitimately should be—a joy.

Yesterday is what we made it—and there is no yesterday which should be perfect in the light of today, wherefore be thankful that there is a today and that with it comes the opportunity to build better, nobler and stronger upon the mistakes of yesterday.—Magazine of Mysteries.
